Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Applicant's Response dated 21 May 2002 has been received in application serial number 09/778,988.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

3. The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1-4, 8-10 and 22-24 are rejected under 35 U.S.C. 102(e) as being anticipated by Quiachon et al. 6,322,587 which discloses the invention as claimed comprising: A prosthetic graft with a first graft conduit having first and second ends and first and second stents (170, 171, 172, 175 and 176), the first stent adapted to secure the first end of the first graft conduit within the lumen of the common iliac, the second stent adapted to secure the second end of the first

Art Unit: 3738

graft conduit within the lumen of the external iliac artery; and a second graft conduit attached in fluid communication with the first graft conduit, the second graft conduit having a third stent adapted to secure it within the lumen of the internal iliac artery, the first and second graft conduits being sized and configured to be contained within and delivered by the single delivery catheter (170, 171, 175, 176, 176' see figure 17-21 col. 3 lines 38-67, col.4, lines 1-67.

Response to Arguments

5. Applicant's arguments filed 21 May 2002 have been fully considered but they are not persuasive. Applicant contends that the present invention is directed to a prosthetic graft for placement by a single delivery catheter at the bifurcation of a common iliac artery into external and internal arteries. Claims 1, 8, and 9 do not mention internal, or external iliac arteries. In the preamble of the claims applicant does recite first second and third vessels but it is noted that none of the terminology breathes life into the claims. Applicant's remarks are not commensurate with the scope of the because it has been held that the recitation that an element is "adapted to" perform a function is not a positive limitation but only requires the ability to so perform. It does not constitute a limitation in any patentable sense. *In re Hutchison*, 69 USPQ 138.

Conclusion

6. prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Martin 5,653,743 discloses a graft implanted into internal and external iliac arteries.

Art Unit: 3738

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

8. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
